

Ciphr Partner Program Guide

About **Ciphr**

Who

Ciphr is a software company that creates next-level applications. We build our software with a security and privacy-first mindset, leading us to develop many features and protocols that overlap and create a “multi-layered, defense in-depth strategy”.

Why

Communication is incredibly important, and our digital world allows for instant communication across the globe. Privacy is a right, not a privilege and we believe everyone should have access to secure and private communication solutions.

Today’s communication tools will **not** solve tomorrow’s *digital security and privacy problems*, such as the threat of quantum computers.

Our Post-Quantum Elliptic Curve Cryptography (PQ-ECC) provides protection against cyberthreats that exist both now and will exist in the future. This strategy is unique compared to other communication tools that do not put privacy and security first.

Ciphr's Features

Ciphr has next-level security and privacy features, and provides more than just end-to-end encryption. The table below clearly shows the important additional features and protocols that Ciphr has compared to other communication apps:

Features	Ciphr	Other communication apps
End-to-End Encryption	✓	✓
One to One Messaging	✓	✓
Group Messaging	✓	✓
Sending Images and Files	✓	✓
Calling (Voice and Video)	✓	✓
Encrypted Voice Notes	✓	✓
Post-Quantum Encryption	✓	✗
Perfect Forward Secrecy	✓	✗
Composite Key Brute-Force Protection	✓	✗
User-Controlled Keys	✓	✗
No Location Services/Tracking	✓	✗
No Phone Number or Email Required	✓	✗
No Backdoors	✓	✗
Password Protected App	✓	✗

To find more in-depth information about Ciphr's features and protocols, visit our [Security page](#).

Ciphr's **Partner Program** Overview

The Ciphr Suite is sold via our trusted Partners. The Ciphr Partner Program has **three participation levels**:

Official Partner

This top-level partner has the ability to directly sell Ciphr subscriptions and manage agents. Ciphr Partners receive direct support from Ciphr, including technical and marketing support.

Agents

Agents collaborate with Ciphr Partners and can directly sell Ciphr subscriptions.

Referral Partners

Rewards are earned when qualified leads are referred to Ciphr and when leads result in paid subscriptions.

Benefits of becoming a **Ciphr Partner**

UCaaS is a \$50 billion dollar untapped market opportunity. By becoming a Ciphr Partner, you have a lucrative opportunity to provide clients with a secure communication solution at the leading edge. We ensure Ciphr users receive the most secure communication and collaboration solution available.

The benefits of becoming a Partner include:

- Providing privacy and security-first communication solutions for your clients.
- Increasing your revenue and profitability by offering the Ciphr Suite.
- Enhancing your security and privacy offering.

Ciphr provides certain materials and activities to help you get started, including:

- Sales support, technical support & product training from Ciphr.
- Access to our subscription and end-user management portal (Ciphr Portal) to streamline your Ciphr sales.
- A Marketing Onboarding Package, helping you to start selling Ciphr quickly & easily.

I'm interested in joining the Ciphr Partner Program! What should I do now?

Let us know you are interested by clicking [Apply Now](#) on the [partner page](#), filling out the form, and you'll hear from us shortly.

Next-level encrypted communication

The best encrypted software for
messaging, calling, email and storage.
